

REMARKS / ARGUMENTS

This amendment is submitted in full response to the outstanding Office Action dated December 30, 2003 wherein claims 1 through 25 stand rejected under the judicially created doctrine of obviousness type double patenting as being unpatentable over U.S. Patent No. 6,024,337 to Applicant herein.

In response, applicant submits herewith a Terminal Disclaimer for U.S. Patent No. 6,024,337. Each of which disclaim the terminal portion of any patent granted on this application, which would extend beyond the expiration date of the above indicated patent.

Based on the above the outstanding rejections of all the claims present in the subject application based on the noted doctrine of obviousness type double patenting is believed to be overcome.

In the event that any fee may be required by the filing of this paper, the Commissioner is hereby authorized to charge any fees and/or credit to our **Deposit Account No. 13-1227**.

Based on the above, this application is believed to be in clear condition for allowance and such action is respectfully solicited.

Respectfully submitted,
